Aliens ruled the world.

Their medicine was different to ours. They believed in herbal medicines and traditional monoclonal antibody regimes, there was no tuberculosis, AIDs or metabolic disorders. Treatment was administered in vaccines and carrier anaerobes. There were no cardiac or respiratory disorders. Health was generally good. Vascular and nephrogenic disorders, Ginger was mixed with honey and given in enema forms. Bark therapy was unheard of. Digitalis and salicylic acid were used extensively, Auscultation was combined with

holograms and tactile chemotherapy. Bacteria and viruses were alien to the world And peace was followed by harmony and good feelings, All was generally good and peaceful. Aliens will be missed forever together with dinosaurs and other invertebrate reptiles.

Rainbows, glaciers and volcanoes were the order of the day. Look for celestial crashes to view evidence of alien invasion and infestation.

Long live motherhood and mother nature.

**Ready to submit your research? Choose ClinicSearch and benefit from:**

- fast, convenient online submission
- rigorous peer review by experienced research in your field
- rapid publication on acceptance
- authors retain copyrights
- unique DOI for all articles
- immediate, unrestricted online access

**At ClinicSearch, research is always in progress.**
